

BA in Management and Finance

Institution	Faculty of Management, University of Łódź
Name of the programme	Management and Finance
Degree to obtain	Bachelor in Management and Finance
Duration	6 semesters (3 academic years)
Language of instruction	English
ECTS points	180
Programme description	<p>The study programme described herein leads to an award of a BA in Management and Finance. The objective of this study programme is to educate specialists capable of working as middle level officers in business corporations and as assistants to top managers in various organisations, especially in business corporations. The graduates are to acquire knowledge and skills necessary to use appropriate management methods and tools, including financial and accounting techniques used for supporting management processes in a professional and ethical way. The BA in Management and Finance study programme is addressed to individuals ready to work in organisations characterised by demanding norms and standards and operating in multi-cultural, global environment. The candidates are expected to have the capacity of communicating in English as well as an openness for cooperation, ability to think logically, identify and structure problems. The candidates should be genuinely interested in economic and social processes. Graduates of the BA in Management and Finance study programme will obtain the fundamental knowledge in social sciences and will become acquainted with techniques and methods of supporting management processes in business organisations – in particular related to finance and accounting. The graduates will also obtain the skills necessary to use these</p>

	<p>techniques professionally. In particular the graduates will be capable of identifying and structuring problems of organisations. They will be capable of preparing high quality information for decision making by internal as well as external stakeholders. They will know contemporary principles governing preparation of financial statements, commonly adopted cost accounting and managerial accounting methods as well as fundamentals of financial management. The graduates will be poised to search for optimal solutions to organisational problems based on acquired knowledge and skills and to implement these solutions in a professional and ethical way.</p>
