

# MA in Economics Eco-Business

|                                |   |
|--------------------------------|---|
| <b>Institution</b>             | <b>Faculty of Economics and Sociology, University of Lodz</b>   |
| <b>Name of the programme</b>   | Economics Eco-Business  |
| <b>Degree to obtain</b>        | MA in Economics Eco-Business  |
| <b>Duration</b>                | 4 semesters (2 academic years)  |
| <b>Language of instruction</b> | English   |
| <b>ECTS points</b>             | 120   |
| <b>Programme description</b>   | <p>The studies in Economics-Eco-business are intended to answer the demand put forward by entrepreneurs, searching for specialists in environmental protection economics. The specialists in this field should demonstrate adequate theoretical knowledge, as well as, practical skills and competences required in the modern economy, oriented, among others, towards sustainable development, implementation of environmental management systems, and innovative environmental technologies, in particular in the energy sector.</p> <p>The key aim of the second cycle studies in the field of Economics-Eco-business is to provide the students with the broadened knowledge in economic sciences, applicable in implementation of current economic development strategies on a global scale, combined with the ability of a graduate to apply acquired knowledge in professional practice. The latter includes in particular: the practical application of knowledge on economic phenomena and processes, in particular those taking place in the fuel and energy sector; the ability to formulate own practical conclusions, to interpret creatively various economic problems, primarily those related to environmental protection sector, in accordance with the principles of sustainable development. An important aim of studies is also to educate a graduate able and ready to take an active part in social life of a community. This means that a graduate is equipped with advanced knowledge and skills in environmental economics and - at the same time - demonstrates competences required to play such an active role, by being oriented not only towards self-education and self-improvement but also towards public activeness (on various scales and on different levels of social structures).</p> <p>Therefore, the key objective of instruction is to provide the students with</p> |

|  |  |
|--|--|
|  | <p>knowledge and skills (defined under the study programme), largely by direct contact with their future professional practice.</p> <p>The second-cycle studies in Economics-Eco-business contain the elements of traditional studies in the area of social sciences - economics, finance, management studies, supplemented by specialised courses, implemented under study programmes in environmental protection or energy studies. Thus, the studies in Economics-Eco-business equip the students with broadened and advanced (as compared with the first-cycle studies) knowledge in the field of economics and ability to understand the phenomena and problems of economic management in micro- and macroeconomic dimensions, and - in particular - with the knowledge of economic aspects of fuel and energy economy and its impact on the environment. An important element of the study programme is also the inclusion into the curriculum of the processes and problems relevant from the point of view of environmental protection, implementation of sustainable development strategies, environmental technologies and environmental management systems.</p> |
| <p><b>Tuition</b></p>                  | <p>The charge of 3000 PLN/year applies for Polish and the EU/EFTA citizens.</p> <p>2500 EUR/year for students from outside the EU/EFTA, exclusive of an additional 120 EUR charge that covers administrative fee (for students of Polish origin the tuition is reduced by 50%).</p> <p>Please check UL website for updates about payments</p>  |
| <p><b>Deadline for application</b></p> | <p>15 July 2017</p>  |
| <p><b>Requirements</b></p>             | <p>The programme will be open upon enrolment of a minimum of 35 candidates.</p> <p>The programme is open for graduates of all fields of study (holding Bachelor's, Master's or Engineer's degrees).</p> <p>Admission of candidates is based on submitted documents and - in the case of a large number of candidates - on diploma competition (ranking).</p> <p>Candidates for Economics-Eco-business studies (Second cycle ) taught in English should demonstrate advanced English language skills (B2 level).</p>  |
