

MA in Economics and International Business

Institution	Faculty of Economics and Sociology, University of Lodz
Name of the programme	Economics and International Business
Degree to obtain	MA in Economics
Duration	4 semesters (2 academic years)
Language of instruction	English
ECTS points	121
Programme description	<p>The aim of the programme is to educate open-minded specialists who are able to understand, analyse and solve different socio-economic problems in the vast area of economics and also work in similar field in various institutions. The programme includes essential knowledge in economics and international business and at the same time allows students to expand individual interests through numerous elective courses. The programme content is designed to fully meet with current market needs of specialists in economics and international business. Understanding the gravity of appropriate training, the studies supplement academic knowledge with additional practise via case studies and group work. Students have various opportunities to apply their knowledge and skills effectively to many areas of their interests and to make themselves familiar with theoretical as well as empirical part of studies. Thus, the programme attempts to educate most comprehensively on contemporary approach towards globalisation and integration, and other dimensions of complex processes of global economy. Graduates of the programme can find employment as policy-makers, economic analysts, researchers and other economic professionals. Generally as those, who are expected to understand development processes in global economy on its various levels, like employees of multinational corporations, government representatives, public administration workers, highly qualified advisors, etc. They are well prepared to work in flexible, multicultural business environment.</p>
